2. Project Pricing Model

Pricing is quoted using one of three models depending on client engagement type:

PRICING MODEL	TYPICAL RATE	USED FOR
Fixed-Bid	Quoted per project scope	Cloud migration, one-time automation builds (e.g., Project Nimbus).
Time & Material (T&M)	Rs. 12,000 - 25,000 / engineer-day	Multi-phase AI/ML platform builds; evolving-scope engagements (e.g., Project Falcon).
Retainer + Usage	Rs. 8-15 lakh/month base + usage	SaaS platform deployments; usage-based billing for AI inference/API calls (e.g., Project Atlas).

3. Client Requirements & Engagement Process

Standard Onboarding: Data handling requires the client to complete Nexora's security and compliance questionnaire *prior* to onboarding.

1. **Discovery:** Discovery call and requirement gathering (1-2 weeks).
2. **Proposal:** Technical scoping document and pricing proposal shared within 5 working days of discovery.
3. **Contracting:** Signed Master Service Agreement (MSA) and Statement of Work (SOW) before kickoff.
4. **Account Management:** Dedicated Team Lead assigned as single point of contact (SPOC) for each client engagement.
5. **Governance:** Bi-weekly sprint demos and a monthly steering committee review for engagements above Rs. 1 Cr.
